

## **Diversity Statement**

The International Crane Foundation achieves our mission by working with individuals, teams and communities in more than 50 countries. The ability to form cooperative relationships with people from diverse cultural and socioeconomic backgrounds requires the organization to seek and engage with staff, volunteers and associates who value and honor these relationships. The International Crane Foundation recruits individuals who have a true passion for our mission, regardless of race, age, ethnicity, sexual orientation, gender, gender identity, physical and mental abilities, and religious choice. Each person's life experiences, backgrounds, thoughts and ideas makes us stronger.
