

# Birding at ICF

The following is a list of bird species that can be observed regularly at ICF.

The first column indicates the resident status of the birds:

**B = Breeding, W = Wintering, R = Resident, T = Transient.**

The second column indicates the areas on our site where these birds are most often found:

**P = Prairie, S = Savanna, F = Forest, W = Wetland, B = Near Buildings.**

**Like Birding?**

ICF is highlighted in the Wisconsin Birding episode of *Discover Wisconsin* premiering June 23, 2012.

Host Emmy Fink visits ICF and takes a special tour of our site with ICF President Rich Beilfuss. Visit [discoverwisconsin.com](http://discoverwisconsin.com) for a listing of show times through 2014.

You can also get involved in the Annual Midwest Crane Count coordinated by ICF each April in Wisconsin and surrounding states. Visit [cranecount.org](http://cranecount.org) to learn more.
