

CRANE COUNT!

A Siberian crane chick has been counting the days inside her egg until she hatches. To draw a picture of **Meg** as she hatches from her egg, solve the following math questions and find the answers on the dot-to-dot puzzle on the next page. Connect your answers in order, beginning with the first question, until the picture is complete. To get you started, we have completed the first two questions for you and have connected the dots on the puzzle. (Caution: You will not use all of the numbers on the dot-to-dot. Only use the answers that you find for the math questions to draw your picture.)

1) $5+3= 8$

2) $1+6= 7$

3) $30-5=$

4) $30+5=$

5) $15-3=$

6) $4+11=$

7) $9+20=$

8) $7-1=$

9) $19-5=$

10) $23+5=$

11) $9+2=$

12) $15-15=$

13) $20-2=$

14) $32+5=$

15) $25-6=$

16) $24-2=$

17) $1+1=$

18) $40-9=$

19) $12+9=$

20) $5+4=$

21) $20-4=$

22) $15+9=$

23) $35-2=$

24) $35+4=$

25) $40+5=$

26) $10+10=$

27) $41+9=$

28) $50-9=$

29) $35+1=$

30) $21+6=$

31) $20+18=$

32) $9-6=$

33) $28+4=$

34) $39-5=$

35) $2+2=$

36) $9-4=$

37) $9+4=$

38) $20-3=$

39) $20+3=$

40) $10-2=$
